Re: California Water

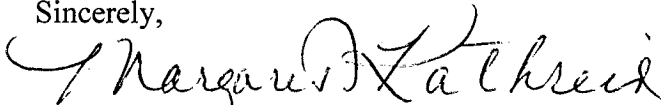

Dear Governor Davis,

Please protect our rivers, bays and drinking water. Please ensure that the CALFED program

- Invests in water efficiency for at least 7 years , without new dams;
- cares for land around the rivers and bays, and restores rivers and bays;
- enforces pollution limits;
- stops taxpayer expenses for studies of new dams.

Thank you for protecting the California environment in many ways.

Sincerely,

Margaret Kathrein
